Rating: 1 to 12 points

Idea has to improve work experience of teachers

	Wil co	Mi ch ell e	ax el	arn out	nic k	tota l
Twitter button	4		-	3		<b>7</b>
Push button to send someone a notification on their phone - respond with a long push for yes, two short ones for no. Example, query teacher to answer mails	6	7	-	12		<b>25</b>
Connect button to IFTTT to allow any kind of interaction		2	4	7	12	<b>25</b>
"Fortune button" - Button that sends chinese proverbs	4	3	8	3	6	<b>24</b>
"Timestamp" - when someone entered the house he push the button - other buttons give light signals to others, idea: can be a button on a desk so that people know a teacher is at his desk when pressed.	10	12	3	-	10	<b>35</b>
Displays the nyan cat song on your phone when pressing the button Or Press button and show random (music) video from youtube.	6		-	4		<b>10</b>
Paint stuff on the phone screen depending of how you press the button / Have a visual map on a screen that shows the taps of different persons in bubbles floating up through the screen	4	6	10	6		<b>26</b>
Press button -> display email of a student (only student/unopened).	4		1	5		<b>10</b>
Press button and send standard email to all students (or limit this depending on how many you can/want to answer) that haven't been answered yet with the notification that you will answer them in a short moment.	10	1	-	10		<b>21</b>
Press button -> fireworks explosions on a screen (can do this with css/js) -> stress relieve	8	8	-	-		<b>16</b>
Button to make music improvisation / Button that records a tapping rhythm, when you hold the button it sends the rhythm to a random button, the light of that button starts blinking the rhythm and the owner of that button has to repeat the rhythm and maybe add a bit and then send it to the next user. / +You have to make a nickname for your button by tapping, like two short taps and then one long tap. 1.Other users can send you a blinking led by first starting the sending procedure by keeping it pressed till it blinks(*light blinks*) 2.then tapping a nickname and end by keeping it pressed till it blinks(*light blinks once if it's right*) 3. then your message with and end with by keeping it pressed till it blinks. / Rhythm rider contest, you have to tap the rhythm or else you're out	4	4	12	4		<b>24</b>
Tapping the button and race against other people. Not spamming, there has to be some timing in the tapping.	4		2	-		<b>6</b>

You can do casino kind of games like guessing a color and then press the button and see if it's correct.	4		-	2		<b>6</b>
Card game by pressing the button you can ask another card -> don't know how this game is called. It's about having the most possible point without going over a max. This can be done with multiple people.	4		-	-		<b>4</b>
Create a calendar - the button will start to blink if there is an appointment - you can snooze it by long tap or quit it by normal tap.	10	10	6	8	10	<b>42</b>
Press button to tell someone that the printer paper/ink is empty	8	5	7	1	8	<b>29</b>
Reaction game, when your led lights up you have to press as soon as possible, then the "led" is sent to a random person and he has to do the same, fastest reaction time wins	4		5	-		<b>9</b>
Press the button, and the light will blink if it will rain today, more information can be showed by different blinking speeds for example.					12	<b>12</b>
